Experience

Personal Portfolio - 2023

My personal portfolio that shows my UI/UX Designs and Full-Stack Development skills. It has all of my previous project case studies, and a form for potential clients to send me an email

23IT - 2023

23IT is the first webflow website that I created for a client. it features some complex filters using jQuery. The client loved it, but he was no longer need it.

Meet Up - 2022

Meet Up is a portfolio website only to show off my design skill. Meet Up is a collaborating website to connect an employee to another. This website was made in Webflow.
